

NAME:-SHREYA SANJAY KADAM

COURSE:-TUTEDUDE PYTHON

## ASSIGNMENT:-1

### Task1:- perform basic mathematical operations

```
a=int(input("enter the first number: "))
```

```
b=int(input("enter the second number: "))
```

```
A=a+b
```

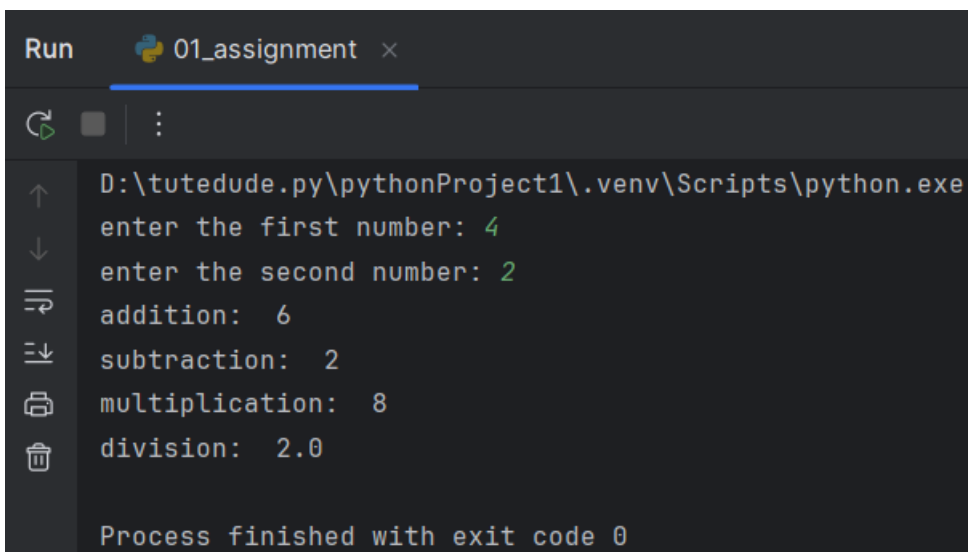

```
S=a-b
```

```
M=a*b
```

```
D=a/b
```

```
print("addition: ",A,"\nsubtraction: ",S,"\nmultiplication: ",M,"\ndivision: ",D,)
```

output:-

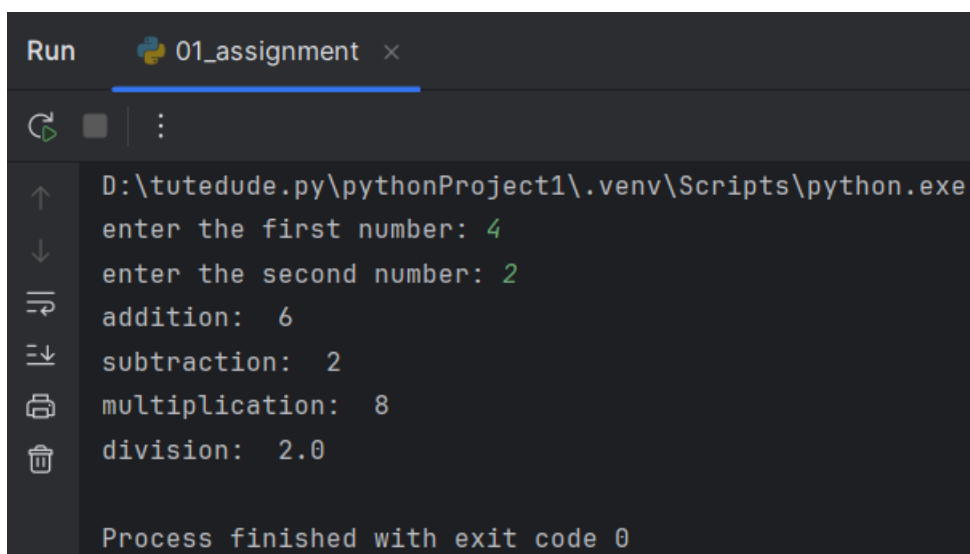

```
Run 01_assignment x
D:\tutedude.py\pythonProject1\.venv\Scripts\python.exe
enter the first number: 4
enter the second number: 2
addition: 6
subtraction: 2
multiplication: 8
division: 2.0
Process finished with exit code 0
```

## Task2:- Create a Personalized Greeting

```
a=input("enter your first name: ")
b=input("enter your last name: ")
c=a+" "+b
print("hello,"+c+"!", "welcome to python project")
```

OUTPUT:-

```
Run 01_assignment x
D:\tutedude.py\pythonProject1\.venv\Scripts\python.exe
enter the first number: 4
enter the second number: 2
addition: 6
subtraction: 2
multiplication: 8
division: 2.0
Process finished with exit code 0
```
